PORTFOLIO

Software Developer

ingoducing ABOUT/ME

A software developer who is always ready to exert maximum effort and produce high-quality work. With full commitment to excellence, I am dedicated to creating innovative application solutions that precisely meet the needs of clients.

EDUCATION

My education provides a strong foundation in my journey as a software developer. With this solid educational background, I am ready to face challenges in the world of software development and continually improve myself through continuous learning.

2023 - Present Universitas Informatika Dan Bisnis Indonesia

2017 - 2020 SMK YPC TASIKMALAYA

EXPERIENCE

For the past four years, I have been working at various companies, gaining diverse knowledge and skills across different scopes of work.

O1 PT INCORE SYSTEM SOLUTIONS

Developing and creating APIs for Android and iOS applications.

Q2 PT MAHAKARYA INTI TEKNOLOGI

There, I developed the Toko Gudang and Harkit Toko Gudang applications, a B2B application for the cooperative of Harapan Kita Hospital in Jakarta.

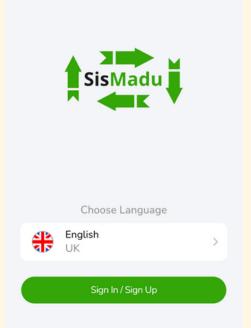

03 PT KLIK QUICK INDONESIA

Developing internal applications such as a freelance application, the olshop.id online store application, and a WhatsApp bot application. Also, developing client applications such as B2C online stores and a payroll system.

PROJECT

Here are some recent applications that I have created and developed.

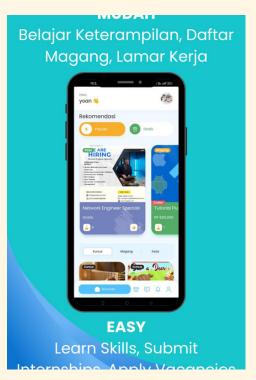

BULOG SPHP APPLICATION

SISMADU

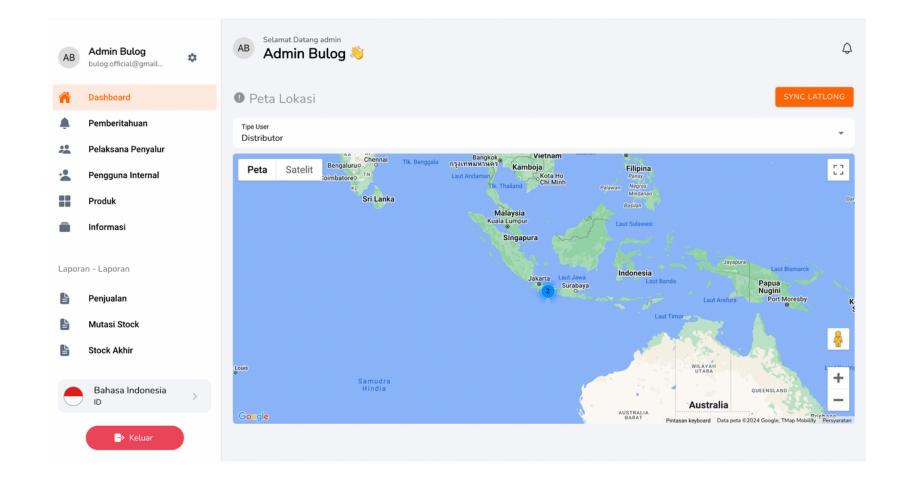

TUGAS ID

RUANG AJAR

SPHP BULOG APPLICATION

Distribution of rice application from the central Bulog to retailers includes stock recording and reporting involving regional offices, branch offices, distributors, distributor retailers, and finally to end consumers.

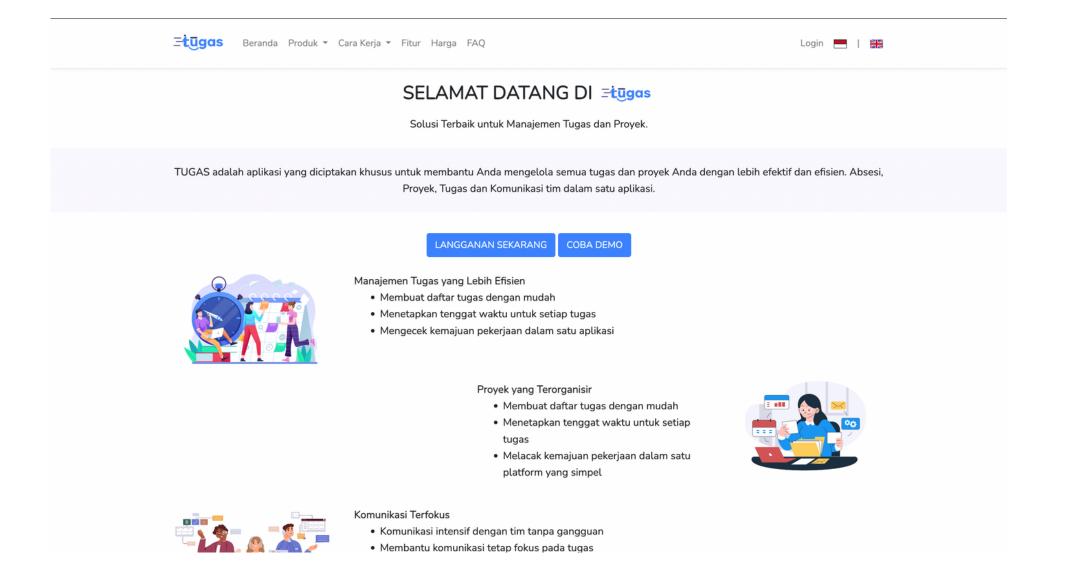

SIMADU

The application for used cooking oil sales from retail to the Sismadu system also includes stock recording and transaction reporting.

TUGAS ID

The application allows users to record attendance, receive assignments, send reports, engage in text discussions, and participate in video conferences with colleagues, teachers, professors, or superiors. Tasks and reports can also include image or video files.

Kelola tugas, pekerjaan dan proyek.

RUANG AJAR

A place for learning and teaching, seeking the latest knowledge, and significantly improving skills.
